

November 23, 1957

As you can see by the date, the information on the other side of this letter was written ten days ago. Just a few nights ago I had the great pleasure of again visiting with Orthon who verified my supposition that the space craft were endeavoring to thwart an international plan to disclose their reality. He told me that at that time there 6,000 space craft brought into our atmosphere to carry out their attempt to show themselves to people in every nation of Earth simultaneously. Which they did. During that time there were also a number of landings and personal meetings with people around the world. When conditions became better, many of these people will tell of their experiences, but not now.

There have been some reports, received indiscriminately, that mass landings were to be expected within a short time. Orthon says this is not true. It would be dangerous both for the space travelers and for Earth's inhabitants to try any such event for sometime to come, because of the great fear still existing in the minds of Earth's people. He said this is also true of suggested interruptions of radio and TV programs. So until the people of our world accept these space travelers as fellow human beings who are traveling space as we are now traveling
