Dear Mr. Kubota:

Since there are flying saucer groups in Japan, I am sure some of them have seen the vicious article written by Mr. Keyhoe and published in the June issue of their NICAP. Although it is against our policy to answer such attacks, it did seem necessary, in view of NICAP'S many readers, to send a correct report of those events. It will be interesting to see how he responds.

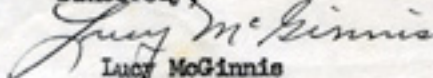

In the meantime a mimeographed copy of my reply is being sent to each of our co-workers for their information and use. Yours is enclosed.

Undoubtedly you have read published reports of GA's tour in Europe. No world-wide report, however, was published regarding the hundreds of people who were turned away from his lectures through New Zealand and Australia. Here again the reports were vicious and false, but all are serving a purpose. His tour proved that the people are interested in far greater numbers than the opposition likes. They feel their foundation weakening and are now coming forth to attack in any way possible. But the time is coming when the people will awaken and again begin to think for themselves. Then the present order of things will be changed and the people will grow, through understanding into peace and brotherhood toward all. This is as it should be. But we are an impatient people. Growth does come slowly through all phases of Nature.

It has been a long time since we last heard from you. Won't you please let us know how things are going in Japan? We have received much mail from there which we have to date been unable to answer, but we are still will in time get all of those most welcome letters answered.

With kind wishes to you always.

Sincerely,

Lucy McGinnis  
Secretary
