Valley Center, Calif.

October 24, 1954

Mr. Hachiro Kubota
Furukawa Street
Maguda, Shimane
JAPAN

Dear Mr. Kubota:

Thank you so much for your sincere and flattering letter of September 6th, the poem you dedicated to Mr. Adamski, and your picture. We are truly sorry that your letter has gone thus long without a reply. After the publication of his book a year ago, Mr. Adamski became so swamped with speaking engagements, meetings with scientists, government men, and innumerable visitors of all kinds, along with the preparation of his second saucer book, that his correspondence went unanswered. During this time hundreds of letters stacked up. We volunteered our services and received his permission to answer some of his voluminous correspondence as we are acquainted with Mr. Adamski's teachings. Be assured that Mr. Adamski has given your letter his personal attention; however, he has found it humanly impossible to personally reply to the volume of mail with which he has been deluged from all parts of the world.

Mr. Adamski says to assure you that he has indeed contacted a man from Venus. Since his initial contact, he has met his space friends many times, having had a total of 150 hours of personal contact with and instruction from the Venusians. After the initial contact, the language used for communication was English. Of course, Mr. Adamski is not the only Earth man who has contacted our Elder Brothers of space. At least five men living in Southern California have likewise written of such contacts, and thousands of persons all over the globe have seen the saucers.

His Venusian friend would not permit Mr. Adamski to take his photograph for fear that he and others from his planet might be recognized and mobbed by ignorant and fearful people. However, a drawing has been made of the Venusian, which you will find in Mr. Adamski's book. We have postcard size saucer pictures which we sell at 50¢ a print to cover cost of printing, mailing and handling.

We are on the threshold of a new age in which we will realize that there is but One Reality, and not Spirit and Matter, as we have hitherto been taught.

Sincerely yours,
For George Adamski
By E.M.R.
