

you are for your use; their information to be used by each as you think best for the purpose at hand. Naturally, with our present mode of living on Earth, one must consider finances. In America the price of the booklet figures out at about 5¢ per question. Yet, for those who are unable to pay but are sincere workers, I have made a gift of the booklet; feeling that no one should be deprived of Truth for lack of money. But one needs also to think on this facet of human nature -- for the most part, people appreciate most that for which they have had to pay in one way or another. I specified "No reproductions" in order to prevent publications of these booklets as the publishers' own material, in English-speaking nations.

From England I received this suggestion: that I send a supply of booklets to each co-worker desiring them, to be sold at a price each co-worker deems suitable in relation to the economic condition of his nation and general financial condition within his area. This to entail freedom to translate, as well as reproduce, in non-English speaking nations. I hereby agree to this suggestion and give permission as stated.

IF ANYTHING IS ENCLOSED, THIS LETTER
WILL BE SENT BY ORDINARY MAIL

FIRST FOLD

I believe it is possible to obtain from American Express or Postal Exchange in all countries money orders usable in others. I am quite familiar with the various expenses incurred in this work and do not want any worker to be "out of pocket" if avoidable. Each of you work out for your locality, and in accordance with your working conditions, a percentage to be retained for yourself; after which the balance may be sent here to me for carrying on the work.

Things are working out here better than we dared even hope and we are fast getting caught up with our mail. I am endeavoring to send personal letters to each leader now, answering specific questions. But periodically, and simultaneously, a "duplicate" letter will go to each of you re information from the Brothers and full scope of world-wide events as seen from here. Thank you all for your wonderful cooperation. Your efforts are appreciated far more than you can ever know. With kindest regards always, Sincerely
George Adams
